

INTRODUCING CLUB-MATE

THE SPARKLING MATE ICE-TEA

CLUB-MATE

REFRESHING AND ACTIVATING

CLUB-MATE

Mate soft drink with caffeine

Increased concentration of caffeine (20mg / 100ml)

Mate is a plant found in ancient woodland, which has been cultivated in South America for centuries, containing caffeine as well as tanning agents. This unique natural combination of precious components makes Club-Mate an unrivalled soft drink; activating and stimulating, refreshing and revitalising.

Steigerwaldstr. 21-23 • 91481 Münchsteinach

500 ml (16.9 fl.oz.)

CLUB-MATE[®]

One Gets Used to it...

Club-Mate is a popular soft drink manufactured in Münchsteinach, Germany by the Brauerei Loscher KG, and is now available in America. It contains Yerba Maté extract.

Activating and Stimulating

Each 240mL serving of Club-Mate contains 48mg of caffeine. This is 100mg per 0.5 L bottle. Club-Mate is lightly sweetened compared to other soft drinks. Each 240mL serving contains 16g of sugars and 75 calories (314 kJ energy).

Refreshing and Revitalizing

INGREDIENTS:

carbonated water, glucose-fructose syrup, sugar, yerba maté extract (0.4%), citric acid, caffeine, natural flavors, and caramel color.

Club-Mate is a wildly popular beverage in Germany, particularly among computer hobbyists and students looking for bursts of energy while working on their projects. At a recent four day conference in Berlin that had 3,000 attendees, a total of 11,000 bottles were consumed. This enthusiasm has now begun to spread to our shores.

THE SPARKLING MATE ICE-TE

CLUB-MATE

As the Germans say: "One gets used to it..."

Club-Mate derives its unique taste from Yerba Maté or Mate, a plant found in the ancient woodland, which has been cultivated in South America for centuries, containing caffeine as well as tanning agents. This unique natural combination of precious components makes Club-Mate an unrivaled soft drink; activating and stimulating, refreshing and revitalizing.
